Annual Budget
For Calendar Year
2007

Vision
Service and leadership that enriches the community.

Mission
To provide quality service and leadership that maximizes resources and responds to our community’s present and future needs.

Shared Goals
- Cooperation and Teamwork
- Honesty and Integrity
- Responsiveness and Reliability

These values demonstrate our commitment to professionalism.

CITY COUNCIL ADOPTED BUDGET

9/12/06
CITY COUNCIL CERTIFIED TAX LEVY
THE BUDGET PROCESS

The procedure for the annual budget process, adoption of a tax levy, and amending the budget is specified in the following sections of the Home Rule Charter of the City of Omaha:

- Section 5.04 Formulation and Submission of Budget
- Section 5.05 Scope and Content of the Budget
- Section 5.06 Consideration and Adoption of Budget by Council
- Section 5.07 Tax Levy
- Section 5.10 Transfer of Appropriations
- Section 5.11 Emergency Appropriations

The following is a description of each of the steps taken to ensure compliance with the provisions of the Home Rule Charter and to incorporate modern fiscal management and municipal budgeting techniques.

Initial Budget Preparation and Request

The 2007 budget process began approximately March 20, 2006 with the process of forecasting 2007 revenues and projecting inflationary increases in regard to fixed costs such as health care, utilities and basic commodities. With this information in mind, preparation of the 2007 Budget request workpapers by the Budget and Accounting Division staff of the Finance Department was initiated. The departments were instructed to submit any requests for new or expanded services in a separate request.

In order to assist the Departments in the preparation of their request, the 2007 budget workpapers included the following: (1) a detail report of all classified and full-time unclassified employees listed by classification and salary step as of March 25, 2006; (2) a detail report of all non-personal service expenditure line items detailing 2005 expenditures and 2006 line item appropriations by organization; (3) an equipment and capital analysis worksheet; if equipment and/or capital expenditures were expended or appropriated during the 2005-2006 period; (4) a two year expenditure schedule detailing by line item each division's expenditures through 2005-2006; (5) a fringe benefit calculation schedule; (6) a memo detailing budget information, instructions and various standardized rates to be used in the budget request preparation process.

Again with this year's instructions, the departments were asked to submit, along with their budget request, enhanced performance measures. The Finance Department provided examples and information on alternative performance measures and requested that the departments contemplate the measures they use. Using more appropriate and pertinent measures will offer feedback that is more representative of the department's accomplishments.

The packets of budget request workpapers, schedules and instructions were distributed to departments, divisions and agencies on April 17, 2006. The Budget and Accounting Division of the Finance Department supplied technical assistance throughout the months of April and May to assist all departments in preparing their budget requests.

During the period of June 1 through June 21, 2006 the preparation of budget requests was performed by all departments, divisions and agencies. The preparation of fund statements and supporting schedules reflecting 2005 Actual and 2006 Budget information was performed by the Budget and Accounting Division. The Revenue Division prepared revised forecasts of 2006 and 2007 revenues. These forecasts were reviewed by the Finance Director.
The final date for submission of all budget request workpapers and supporting documentation to the Budget and Accounting Division was May 12, 2006.

**Capital Improvement Program**

The Capital Improvement Program (CIP), a requirement of the City's Home Rule Charter, is a policy document and financial plan which outlines the City's proposed capital projects for a six-year period. The CIP is designed to guide financial management of capital resources, policy planning and interdepartmental coordination through application and implementation of specific City goals.

Various City departments submit proposed capital improvement projects to the Mayor's Capital Improvement Program Task Force. This Task Force evaluates each of the proposed projects, assigns a preliminary priority ranking, and determines the proposed financing source(s). The prioritized list is then submitted to the Capital Improvement Priority Committee. Representatives from the Finance Department are members of both of these committees and provide financial guidance as to the total dollars available for capital expenditures for each year of the six year program. According to the final priority ranking, the proposed projects are either assigned a position within the six year time period or deleted from the capital improvement schedule. All projects between the fourth and sixth year time frame are considered as mid-range projects. Those projects between the second and third year are a more exact program; the one year schedule is proposed as the administration's capital budget and is incorporated into the City's annual budget. The final Capital Improvement Program plan is sent to the City Council for their review, consideration and adoption.

**Budget Review by Mayor**

The departments and divisions of City government, and various outside agencies, submitted their 2007 budget requests to the Budget and Accounting Division of the Finance Department on May 12, 2006 as required by Section 5.04 (1) of the Home Rule Charter. Here, the requests are recorded, tabulated, reviewed and analyzed. Based on this analysis, the Finance Department makes recommendations concerning the requested amounts and also prepares an updated estimate of revenues based on current rates for taxes, fees, charges, licenses and permits. This information is then presented to the Budget Committee comprised of the Finance Director, the Mayor's Chief of Staff, the Mayor's Deputy Chief of Staff and the Manager of Budget and Accounting. At this point in the budget preparation process, it is usually the case that requested appropriations exceed projected revenues.

This information is then analyzed and consolidated by the Committee and sent to the Mayor. It is his task to determine priorities, assess current and future needs, make long range plans through integration of the Capital Improvement Program, review manpower levels, requested appropriations and projected revenues. This review for the 2007 Budget was conducted by the Mayor in the time frame of May 24, 2006 to June 21, 2006 in conjunction with the Mayor's staff, the Finance Director, department and division heads, and business and community leaders. In accordance with Section 5.04 (2), the Mayor then makes all final decisions concerning manpower levels, funding levels for all departments, divisions and outside agencies, capital improvements, revenue estimates, and any changes in tax rates, costs recovery fees and other charges. This financial plan then comprises the Recommended Budget which is sent to the City Council for their review, consideration and adoption.

**Introduction of the Recommended Budget**

The Recommended Budget is presented to the City Council for its consideration no later than thirty days before the tax levy certification date in accordance with Section 5.04 (3) of the Home Rule Charter. The Mayor introduces the Recommended Budget at a regularly scheduled meeting of the City Council by reading aloud a budget message. The
text of this budget message, comparative data for the current and immediately past budget years, and all other statements and schedules as required by Section 5.05 of the Home Rule Charter, are included in the printed budget document. Upon submission, the budget becomes a public record and is open to public inspection. The 2007 Recommended Budget was presented to the Omaha City Council on July 25, 2006.

Budget Review by City Council

After the introduction of the Recommended Budget, the City Council begins its deliberations and review of the financial plan developed by the Mayor and his staff. Consideration of the budget by the City Council is required by Section 5.06 of the Home Rule Charter and is accomplished through a series of budget hearings which are open to the public and news media. All budget hearings are held at the Omaha/Douglas Civic Center and a schedule of the hearings is posted in advance. The budget hearing for the 2007 Budget was held on August 8, 2006. At the budget hearing, the Finance Director presents an overview of the budget to inform the City Council of various changes, assumptions, increases and decreases included in the Recommended Budget, giving particular emphasis and detail to the revenue section of the budget. Each department director in turn, and according to the prearranged schedule, then presents opening remarks concerning the budget for his/her department and responds to questions and receives comments posed by the individual council members. At the end of the budget hearing, the Finance Director presents concluding remarks representing the administration's position and answers any questions that may have arisen during the course of the hearings. Upon conclusion of the budget hearings, the City Council is then prepared to receive citizen input and to submit budget revision resolutions in preparation for final adoption of the budget.

Citizen Input

Upon presentation of the Mayor's 2007 Recommended Budget, the City Council set a public hearing date for August 8, 2006 at 7:00 p.m. in the Legislative Chamber of the Omaha/Douglas Civic Center. Section 5.06 of the Home Rule Charter stipulates that the public hearing must be held at least ten days prior to the tax levy certification date. The public hearing was held in the evening hours to provide as many citizens as possible with the opportunity to offer testimony to the City Council. The budget presentation generates press coverage. Daily newspapers, television and radio stations report budget highlights and statistics. Following the budget presentation, copies of the Mayor's Recommended Budget are available to the general public for visual inspection and study at the ten public libraries, in the City Clerk's office and in the Finance Department.

The public hearing is set aside for questions and comments from the public. Any individual is allowed to comment on the budget. Individuals may represent themselves, agencies or associated groups. The public may also ask questions of the council members or administration staff members.

Adoption of the Budget and Tax Levy Certification

After the public hearing, the City Council may, by resolution, make changes to the Recommended Budget. Certain stipulations, however, do exist. Section 5.06 of the Home Rule Charter provides that the City Council may revise the expenditure side of the budget by increasing, decreasing, inserting or deleting appropriation items, except that it cannot reduce appropriations for debt service. Expenditure revision resolutions require a simple majority for passage. The City Council may also introduce resolutions to revise revenue estimates, however, these revision resolutions require an affirmative vote from five of the seven council members. After all amending resolutions have been acted upon, the City Council adopts a final budget resolution by majority vote. The Mayor may veto any of the budget revision resolutions and the City Council may sustain or, with five affirmative votes, override the Mayor's veto. By adopting a budget, the City Council authorizes appropriations by department, division, agency or account for the ensuing budget year. The 2007 Budget was presented to City Council and was adopted. The Charter provides that
the budget, as adopted, be reproduced and copies made available to the general public and governmental agencies. Copies of the adopted budget are made available to the public at the ten public libraries, the City Clerk’s office and the Finance Department.

After adopting the budget, but not later than October 13th of 2006, the City Council must certify a tax levy. Section 5.07 of the Home Rule Charter provides that the City Council, on the basis of the final budget, shall adopt a resolution certifying a single City of Omaha tax levy for the ensuing fiscal year. The single City of Omaha tax levy certified in any year is limited to $.6125 per $100 of actual taxable value for the City's General Fund plus whatever tax levy is necessary to pay principal, interest and administrative expenses on the indebtedness of the City, and for the satisfaction of judgments and litigation expenses against the City.

The 2007 Budget was adopted on Tuesday, August 22, 2006. The City Council on Tuesday, September 12, 2006, certified a single tax levy rate of $.43387 per $100 of actual valuation for 2006 consisting of $.24312 for the General Fund, $.17581 for the Debt Service Fund, $.00600 for the Judgment Fund and $.00894 for the Riverfront Redevelopment Fund.

**Amending the Budget**

The Home Rule Charter provides for amending the budget through the provisions of Sections 5.10 and 5.11.

Basically, there are three types of budget transfers, each requiring a successive level of authority. First, the Mayor may, at any time, transfer an unencumbered appropriation balance or portion thereof between appropriations of the same division. Second, transfers between divisions in the same department may be authorized by resolution of the City Council. Third, transfers between departments/agencies may be authorized by ordinance of the City Council.

Public comment on resolutions is heard before the City Council votes on the resolution. Public comment on ordinances is heard after the second reading of the ordinance. Ordinances are advertised in a newspaper of public circulation after the first reading of that ordinance.

To meet a public emergency threatening serious loss of life, health or property, the City Council may, by ordinance, make emergency appropriations or transfers. An ordinance may be passed as an emergency measure after one reading when the City Council finds that an emergency exists pursuant to the Home Rule Charter, Section 2.13. If there are no unappropriated monies available, the City Council may, by ordinance, authorize the issuance of emergency notes.
