Allen R. Herink
City Comptroller

On March 16, 2010, an ordinance was adopted by the members of the Omaha City Council to amend Section 16-25 of the Omaha Municipal code. This amendment imposes an additional \$25 late fee for motor vehicle wheel tax that is not paid in a timely manner. This late fee is effective for all wheel tax payments made on or after April 1, 2010.

Motor vehicle wheel tax is due in conjunction with the motor vehicle registration renewal paid to Douglas County each year. The renewal is due by the last day of the month listed on the form. **The \$25 late fee will be automatically assessed on all motor vehicle wheel tax payments made more than five days after the renewal due date.**

All fees received for wheel tax, including the additional \$25 late fee, are credited to a separate fund used to defray the cost of maintaining Omaha city streets.
